Sir:

**PRELIMINARY AMENDMENT**

Prior to the examination of the above application, please amend this application  
as follows:

**IN THE CLAIMS:**

Please cancel claim 1 and add new claims 54-73 as follows.

54. A monitoring system for a pressure relief device, comprising:
- a release sensor configured to provide an indication when the pressure relief  
device activates;
- a first communication device connected to the release sensor and configured to  
send a wireless transmission having an activation signal when the indication is provided  
by the release sensor and configured to send a wireless transmission having a status
